PROFESSIONAL PROFILE

Results-driven Senior Professional specializing in Back-end development, bringing over 6+ years of experience in the complete development cycle for dynamic web projects. Proficient in Python, OOPS, JavaScript, and MySQL. Developed efficient and scalable solutions that improved website performance. Resolved complex technical issues with a 95% success rate, resulting in seamless project execution. Collaborated with cross-functional teams, fostering strong relationships and delivering high-quality results. Continuously updated skills to stay ahead of industry trends, resulting in a 90% increase in productivity. A proactive communicator dedicated to exceeding client expectations and driving successful outcomes.

WORK EXPERIENCE (6 + YEARS)

Senior Software Engineer - Herkey(Formely Jobsforher)
May 2023 - Present
Stacks**: Python(Django), Rest API, Microservices**
Projects**: HERKEY**

- Worked collaboratively to design clean and user-friendly interfaces, ensuring intuitive interactions and seamless experiences.
- Undertook development tasks for front-end public and internal websites, as well as complex back-end server code.
- Took responsibility for designing and implementing scalable software architectures that deliver high performance.
- Demonstrated proficiency in multiple programming languages, frameworks, and tools, utilizing them effectively to tackle intricate problem-solving scenarios.

Associate Software Engineer - Capgemini PVT. LTD., India
Aug 2021 - Apr 2023
Stacks**: Python (Django), PHP(Core), JavaScript, Rest API, Microservices**
- Projects**: AIRBUS PLM Engineering ADB (Assignment Database), DQCM (Design Quality Check Manager),Long Range CLASH, data warehouse, ART (AIRBUS REVIEW TOOL)**

SKILLS

- **Programming Language And Framework:** Django, Flask, CodeIgniter, Python, PHP, JavaScript

- **Database:** MySQL, PhpMyAdmin, MariaDB

- **Library and Framework:** Ajax, NumPy, Pandas, RESTAPI

- **Server:** AWS EC2, RDS, REDIS, ElasticSearch, Apache, Microservices , MongoDB, Aws Lambda

- **O.S.** : Linux Ubuntu, Window sub Linux System

- **API** : Rest API (JSON XML)

- Experienced in Python and PHP development on Linux systems.
- Led and managed a team of 4-5 developers and QA professionals based in India, effectively allocating tasks and ensuring clear communication with stakeholders.
- Designed software architecture for products and applications, overseeing the entire development lifecycle from ideation to testing, deployment, and maintenance.
- Provided guidance, coaching, and constructive feedback to team members, fostering their growth and career advancement. Conducted requirements analysis, developed solutions, and executed test cases.
- Mentored and supported team members, facilitating their skill development and offering opportunities for learning and professional growth.

Sr. Web Developer - <u>Softwill Infotech</u>, New Delhi India
June 2019 - Oct 2020
Stacks**: Python(Django) , PHP(CodeIgniter) , JavaScript, Microservices**
Projects**: ERP, GOeasyrepair, Aquafresh, Softwill Infotech, Echosoft**

- Managed and guided a team of developers and QA professionals located in India. Offered technical leadership and mentorship to team members. Developed a well-structured and categorized API for web applications.
- Conducted thorough requirements analysis, and executed design, development, and test cases. Estimated project timelines, assessed feasibility, and identified potential risks, ensuring effective delivery of new requirements.

Web Developer - <u>Bird Global</u>, New Delhi India
Aug 2017 - May 2019
Stacks: Python(Django) , PHP(core), HTML, CSS, JavaScript
Projects: Birdglobal, MithilaShop

- Collaborated to create user-friendly interfaces with intuitive interactions and experiences. Undertook front-end development tasks for both public and internal websites, along with challenging back-end server code.
- Took charge of designing and implementing robust software architectures capable of scaling and delivering optimal performance. Demonstrated hands-on expertise in developing high-quality code using multiple programming languages, frameworks, and tools to effectively solve complex problems.
